Directions to the Laboratory for Social and Neural Systems Research (SNS Lab)

Address of the pickup location
Schulungszentrum Gloriastrasse
(on the USZ campus)
Gloriastrasse 19
8091 Zurich

Arrival
We recommend that you arrive by foot, bicycle, or car.

Arrival by bicycle
In the parking lot directly in front of the Schulungszentrum (“training centre”), there are bicycle racks (see overleaf).

Arrival by car
As soon as you arrive in the city of Zurich, the route to the University Hospital (USZ) is well marked.

Unfortunately, the number of parking spaces at the University Hospital is very limited. However, if you do arrive by car, paid parking is available. The parking lot directly in front of the training center usually fills up quickly, but the Rämibühl Garage is only 2 minutes away from the training centre (see overleaf).

Arrival by public transportation
From the Zurich main train station, take Tram 6 (direction: Zoo) to the Platte tram stop.
From Bellevue, take Tram 5 (direction: Kirche Fluntern) to the Platte tram stop.

The training centre is clearly visible from the tram stop (see overleaf).

Unfortunately, there are currently several construction sites around the University Hospital. The direct path from the Platte tram stop to the training center is closed off as well (see photo on left).

To get to the pickup location, keep to the right and make a small detour (see photo on right). We will pick you up outside the entrance to the training centre.

If you have to use public transportation, we will send you a face mask by mail a few days before the experiment.
Site plan of the University Hospital Zurich (USZ)
The training centre is highlighted in green. The pickup location is marked with a red triangle.

Car and bicycle parking locations
The training centre is circled in red. The pickup location is marked with a red triangle.
