Corona behavior rules in the library

Access to the library
- Library customers are required to have a Covid certificate and to wear a mask when walking.
  - If you are seated at your learning space, masks are not mandatory, but strongly recommended by the Executive Board of the University.
- Borrowing and returning books are possible without Covid certificate, but, obviously, with mask.
- You may book some seats in advance, other seats may be used without prior booking.

Own responsibility
- Use the hand disinfectant we provide when entering the library.
- Maintain a distance of 1.5 meters to the personnel and the other library visitors.

Clean your learning space and devices before use
- Clean your learning space and any devices with the supplied disinfectant and paper before use.

These rules are based on the protection concept for libraries from bibliosuisse and the instructions of the UZH management.
